PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student (graduating 2027) who builds AI/ML and Generative AI applications in Python using FastAPI, the Google Gemini API with structured output, scikit-learn, and OpenCV. Completed AI/ML industrial training at CTTC and a video editing internship at iStudio. Grew an Instagram content page to **448K+ views in 30 days** through trend-based short-form content and Instagram Insights. Combines technical development with creative execution for GenAI, AI content creation, and creative technology internships.

TECHNICAL SKILLS

Programming: Python, JavaScript, C, C++, SQL

Generative AI: Google Gemini API, LLM integration, prompt engineering, structured output handling, RAG (fundamentals)

AI & Machine Learning: scikit-learn, NLP, TF-IDF, Logistic Regression, OpenCV, Keras, NumPy, Pandas

Backend & Tools: FastAPI, REST APIs, Pydantic, SQLite, Git, GitHub, Pytest, Docker (basic)

Video & Content Creation: Video editing, short-form storytelling, clip sequencing, narrative structure, Instagram content strategy, trend analysis, Instagram Insights

Creative Tools: Adobe Premiere Pro, CapCut, Canva, Adobe Lightroom

PROFESSIONAL EXPERIENCE

Video Editing Intern | Internship Studio (iStudio) *24 Oct 2025 – 28 Nov 2025*

- Qualified for the internship through iStudio's Internship Common Aptitude Test (iCAT) and completed a one-month video editing internship and training program.
- Produced a 50–60-second cyberbullying awareness video, sequencing photos and video clips into a concise, story-driven social message (see Selected Projects).

AI & ML Industrial Trainee | Central Tool Room & Training Centre (CTTC), Bhubaneswar *28 Apr 2025 – 28 May 2025*

- Completed 1-month industrial training in Python, supervised and unsupervised learning, NLP, computer vision, and Keras.
- Built a face detection and recognition attendance system using OpenCV, SVM, and LBPH on a self-collected dataset.
- Benchmarked SVM, KNN, Decision Tree, and Neural Network classifiers on identical data, comparing accuracy and inference speed.

SELECTED PROJECTS

@kuchhbhipostkardo — Sports & Entertainment Content Page (Instagram)

- Run and grow a short-form content page (Reels, memes, trending cricket/IPL topics) with 70+ posts, reaching 448K+ views in 30 days per Instagram Professional Dashboard.
- Top Reels crossed 143K, 128K, and 99.5K views by pairing trending topics with strong hooks and captions.
- Use Instagram Insights to decide which formats and topics to post next.

CreateSphere — Creative Design & Image Editing Platform

- Built an online creative platform showcasing photography, generative AI artwork, logo design, and digital poster design.
- Presented photo retouching, brand identity, and custom design services, combining digital design with visual storytelling.

Zindagi Ki Dhun — Indian Culture-Inspired Music & Playlist Experience

- Developed an immersive music discovery and playlist experience celebrating everyday Indian stories under the theme "Har Zindagi Ki Apni Dhun".
- Designed a culture-inspired interface that makes music discovery and listening feel personal.

Cyberbullying Awareness — Short-Form Storytelling Video (iStudio final project)

- Produced a 50–60-second awareness video using photos and video clips to communicate the impact of cyberbullying through a concise narrative.

EDUCATION

B.Tech, Computer Science and Engineering | Mewar University, Chittorgarh, Rajasthan *2023 – 2027 (Expected)*

CGPA: 7.8/10

CERTIFICATIONS

Google AI Essentials | Google (Coursera) *Aug 2026*

Google Prompting Essentials | Google (Coursera) *Sep 2026*

Essentials of Generative AI Content Creation | Adobe, IT-ITeS SSC NASSCOM (FutureSkills Prime) *Oct 2026*

Artificial Intelligence Fundamentals | IBM SkillsBuild *Oct 2026*
