PROFESSIONAL SUMMARY

Final-year B.Tech CSE student (graduating 2027) who builds AI/ML and GenAI applications in Python — FastAPI backends, scikit-learn and OpenCV models, and Google Gemini API integrations with structured output. Completed a one-month Video Editing Internship at iStudio, producing a short-form cyberbullying awareness video. Certified in Google AI Essentials, Google Prompting Essentials, and Adobe's Essentials of Generative AI Content Creation. Seeking GenAI, AI content creation, and creative technology internships that combine technical thinking with visual storytelling.

SKILLS

Programming: Python, JavaScript, C, C++, SQL
Generative AI: Google Gemini API, LLM integration, prompt engineering, structured output handling, RAG (fundamentals)
AI & Machine Learning: scikit-learn, NLP, TF-IDF, Logistic Regression, OpenCV, Keras, NumPy, Pandas
Video & Content Creation: Video editing, short-form storytelling, clip sequencing, photo/video asset selection, narrative structure
Creative Tools: Adobe Premiere Pro, CapCut, Canva, Adobe Lightroom
Development & Tools: FastAPI, REST APIs, Pydantic, SQLite, Git, GitHub, Pytest, Docker (basic)

EXPERIENCE

Video Editing Intern | Internship Studio (iStudio) *24 Oct 2025 – 28 Nov 2025*

- Completed a one-month video editing internship and training program, offered on the basis of performance in iStudio's Internship Common Aptitude Test (iCAT).
- Created and submitted a 50–60-second cyberbullying awareness video, sequencing photos and video clips into a concise, story-driven social message.

AI & ML Industrial Trainee | Central Tool Room & Training Centre (CTTC), Bhubaneswar *28 Apr 2025 – 28 May 2025*

- Completed 1-month industrial training in Python, supervised/unsupervised learning, NLP, computer vision, and Keras.
- Built a face detection and recognition attendance system with OpenCV, SVM, and LBPH on a self-collected dataset.
- Benchmarked SVM, KNN, Decision Tree, and Neural Network classifiers on identical data (accuracy vs. inference speed).

SELECTED PROJECTS

Cyberbullying Awareness — Short-Form Storytelling Video — *iStudio final project* Watch Video

- Produced a 50–60-second awareness video using photos and video clips to communicate the impact of cyberbullying through a concise narrative.

CreateSphere — *Free Online Creative Design & Image Editing Platform* Live Demo

- Built a creative studio website showcasing photography, generative AI artwork, logo design, and digital poster design.
- Presented photo retouching, brand identity, and bespoke digital design services, combining technical precision with visual storytelling.

Zindagi Ki Dhun — *Indian Culture-Inspired Music & Playlist Experience* Live Demo

- Developed a cinematic Indian lifestyle music discovery and streaming experience celebrating everyday Indian stories under the theme "Har Zindagi Ki Apni Dhun".
- Designed an immersive, culture-inspired interface to make music discovery and listening feel personal.

Personal Portfolio — *Developer Portfolio & Project Showcase* Live Demo

- Built and deployed a developer portfolio on Vercel showcasing AI/ML and Generative AI projects built with Python, FastAPI, and the Gemini API.
- Organized the site to present technical skills, live project demos, and experience for software development, AI/ML, and creative technology internships.

EDUCATION

B.Tech, Computer Science and Engineering | Mewar University, Chittorgarh, Rajasthan *2023 – 2027 (Expected)*
CGPA: 7.8/10

CERTIFICATIONS

Google AI Essentials | Google (Coursera) *Aug 2026*
Google Prompting Essentials | Google (Coursera) *Sep 2026*
Essentials of Generative AI Content Creation | Adobe, IT-ITeS SSC NASSCOM (FutureSkills Prime) *Oct 2026*
Artificial Intelligence Fundamentals | IBM SkillsBuild *Oct 2026*
